Disclaimer

The eNetraCare Cataract Screening device is an ophthalmologist assist software and is not a replacement for an ophthalmologist's diagnosis. The results provided are indicative of a high probability of cataract or cataract suspicion. This report does not screen for any medical or vision conditions apart from Cataract. The images in this report are only thumbnails and must not be used for diagnostic purposes. Referral to an ophthalmologist is suggested for further evaluation.

Cataract in one or both eyes is a cause of reversible blindness. Make an appointment with an ophthalmologist if you notice any changes in your vision.
